

RECYCLE ALUMINUM

Troop 995 recycles aluminum to help raise additional funds for the troop. The money is used for buying merit badges, purchasing new camping equipment, and for other expenses of the troop. Please bring aluminum cans to the troop meetings and give them to Anthony Rezendes. There are two prices for cans when they are recycled. The higher price is for 100 pounds or more and the lower price is for less than 100 pounds. If the cans are crushed when you bring them to the meeting we can fit more cans in the truck and therefore receive more funds for the troop. We also can recycle any aluminum such as aluminum siding. Please help the troop raise money through this project.
